Mayor Gordon McCoy
224 N. Rosser
Forrest City, AR 72335

Dear Mayor McCoy,

According to the Employee Handbook, employees are to report harassment in writing. It further states that the City of Forrest City will not tolerate harassment.

Mayor if you think about the treatment I have had to endure since becoming Animal Control Director; this treatment must surely be considered harassment. The first two items on the list are

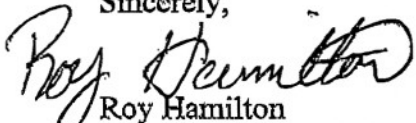

1. Verbal abuse and
2. Interference with an employee's work

Daily I am subjected to rude comments and snide remarks from Humane Society members. Over the last several months I have found documents and complete files missing and file cabinets broken into. In addition, I have been falsely accused of criminal acts and forced to go to court to stand trial. I was later exonerated of these charges, but the harassment continues.

Mayor McCoy, I am not the type of person who will allow someone to run me away. I will continue to faithfully serve the citizens of Forrest City as the Animal Control Director, but I implore you to help me get relief.

I only ask to have a work place free from the current sabotage of my work space and my character. I have no control over my building due to the access of non city employees. No other department has to endure such interference. Please, if you and the council will help with this matter, I will be truly grateful.

Sincerely,

 Roy Hamilton
 Animal Control Director
